Academic year 2023-2024 M2 S3				
September 2023	UE from MSc Neuroscience	UE from other programs	UE from Pasteur Institute	
4-8 sep	Integration week + Res Proposal/Internship Project			
11-15 sep	Neuroimaging			
18-22 sep	Glial and non-neuronal cell Biology		Development and Plasticity of NS 18sep-19 oct (12 ECTS)	
25-29 sep	CNS disorder and repair			
October 2023				
2-6 oct	Res Proposal/Internship Project			
9-13 oct	Brain plasticity	Aging & neurodegenerative diseases		
16-20 oct	Neuronal Networks			
23-27 oct	Neuroepigenetics			INC DAY Oct 26
November 2023				
30 oct-3 nov	Res Proposal/Internship Project		Nov 1st : no class	
6-10 nov	Drug Discovery			
13-17 nov	Res Proposal/Internship Project	Neurodevelopment, prematurity and homeostasis		SFN WEEK (11-15 Nov)
20-24 nov	Res Proposal/Internship Project	Cellular and Developmental Neurobiology		
27 nov-1 dec	Systems Neuroscience			
December 2023				
4-8 dec	RNA regulation in the CNS	Human Genetics and neurobiology		
11-15 dec	Neurogenetics, psychiatry, Behavior			
18-22 dec	Res Proposal/Internship Project	Cerveau et métabolisme cérébral (NuMÉSi)- in French		
winter break 23 dec 2023- 7 jan 2024				

Recommended possible UEs for Magistère students (dates above) :

- Neuroimaging (exam in January)
- CNS disorder and repair (exam in January)
- Brain Plasticity : Brain organoids pros and cons (exam within the week)
- Neuroepigenetics (exam within the week)
- RNA regulation in the CNS (exam within the week)
- Neurogenetics, psychiatry, behavior (exam within the week)
