

Academic year 2024-2025 M2 S3			
September 2024	UE from MSc Neuroscience	UE from other programs	UE from Pasteur Institute
4-8 sep	Kickoff meeting, Integration week		
9-13 sep	Neuroimaging		
16-20 sep	Glial and non-neuronal cell Biology		Development and Plasticity of NS 16sep-18 oct (12 ECTS)
23-27 sep	CNS disorder and repair		
October 2024			
30 sep -4 oct	Res Proposal/Internship Project		
7-11 oct	Drug Discovery	Aging & neurodegenerative diseases (conflict with core Module)	
14-18 oct	Neuronal Networks	Neurodevelopment, prematurity and homeostasis	
21-25 oct	RNA regulation in the CNS		Audition (21-31 oct)
28 oct - 1 nov	Res Proposal/Internship Project		Nov 1st : no class
November 2024			
4-8 nov	Brain plasticity		
11-15 nov	Res Proposal/Internship Project		Nov 11th : no class
18-22 nov	Res Proposal/Internship Project	Cellular and Developmental Neurobiology	
25-29 nov	Neuroepigenetics		
December 2024			
2-6 dec	Systems Neuroscience	Human Genetics and neurobiology	
9-13 dec	Neurogenetics, psychiatry, Behavior		
16-20 dec	Res Proposal/Internship Project	Cerveau et métabolisme cérébral (NuMési)- in French	

winter break 21 dec 2024- 6 jan (morning) 2025

Few places are open to students from Magistère de Génétique

Recommended possible UEs for Magistère students (dates above) :

Neuroimaging (exam in January 6-10th)

CNS disorder and repair (exam in January 6-10th)

Brain Plasticity (exam within the week)

Neuroepigenetics (exam within the week)

RNA regulation in the CNS (exam within the week)

Neuronal networks (exam within the week)

Neurogenetics, psychiatry, behavior (exam within the week)

If interested and to have details, please contact : contact@master-neuroscience-paris.fr
