

Academic year 2025-2026 M2 S3			
September 2025	UE from MSc Neuroscience	UE from other programs	UE from Pasteur Institute
1-5 sep	<i>Kickoff meeting, Integration week</i>		
8-12 sep	Neuroimaging		
15-19 sep	Glial and non-neuronal cell Biology	Neurodevelopment, Prematurity, Homeostasis (conflict with core Module)	Development and Plasticity of NS 15sep-19 oct (12 ECTS)
22-26 sep	CNS disorder and repair		
October 2025			
29 sep -3 oct	Res Proposal/Internship Project	Cellular and Developmental Neurobiology	
6-10 oct	Drug Discovery		
13-17 oct	Body-Brain Interactions in Health and Disease	Aging and Neurodegenerative diseases	
20-24 oct	Res Proposal/Internship Project		Audition 20-31 oct 2025 (6 ECTS) <small>Hearing: from mechanisms to restoration technologies</small>
27-31 oct	Neuronal Networks		
November 2025			
3-7 nov	RNA regulation in the CNS		
10-14 nov	Res Proposal/Internship Project		Nov 11 ^t h: no class
17-21 nov	Neurodevelopment, from genes to circuits and disease		SFN WEEK (15-19 Novembre 2025)
24-28 nov	Python Applications in Neuroscience Research or Neuroepigenetics		
December 2025			
1-5 dec	Systems Neuroscience	Human Genetics and neurobiology	
8-12 dec	Preclinical and clinical research for psychiatric disorders		
15-19 dec	Res Proposal/Internship Project	Cerveau et métabolisme cérébral (NuMéSi)-in French	

Index MetaboBrain Conference

INC DAY Oct 23 2025
