

Academic year 2026-2027 M2 S3			
September 2026	UE from MSc Neuroscience	UE from other programs	UE from Pasteur Institute
31 august- 4 sep	Kickoff meeting, Integration week		
7-11 sep	Neuroimaging		
14-18 sep	Glial and non-neuronal cell Biology		Development and Plasticity of NS 14sep-16 oct (12 ECTS)
21-25 sep	CNS disorder and repair		
October 2026			
28 sep -2 oct	Res Proposal/Internship Project		
5 - 9 oct	Drug Discovery and Advanced Neuropharmacology	Cellular and Developmental Neurobiology (conflict with core Module/not open this year)	
12-16 oct	Body-Brain Interactions in Health and Disease	Aging and Neurodegenerative diseases (MEG)	Audition 19-30 oct 2026 (6 ECTS) Hearing: from mechanisms to restoration technologies
19-23 oct	Neuroepigenetics		
26-30 oct	Neuronal Networks		
November 2026			
2-6 nov	Python Applications in Neuroscience Research	UE Entrepreneurship (3-13 nov)(MEG)_ (extra curriculum)	
9-13 nov	Res Proposal/Internship Project	Neurodevelopment, Prematurity, Homeostasis (M2 MEG)	Nov 11th: no class
16-20 nov	Neurodevelopment, from genes to circuits and disease		
23-27 nov	RNA regulation in the CNS		
December 2026			
30 nov-4 dec	Systems Neuroscience	Human Genetics and neurobiology	
7-11 dec	Preclinical and clinical research for psychiatric disorders		
14-18 dec	Res Proposal/Internship Project	Cerveau et métabolisme cérébral (NuMéSi)-in French
